Pool Pump

Revision: 3. Released on 01/09/2023

NAP-MS300A , 2.7HP, Single Phase 230v, Max. 3200RPM

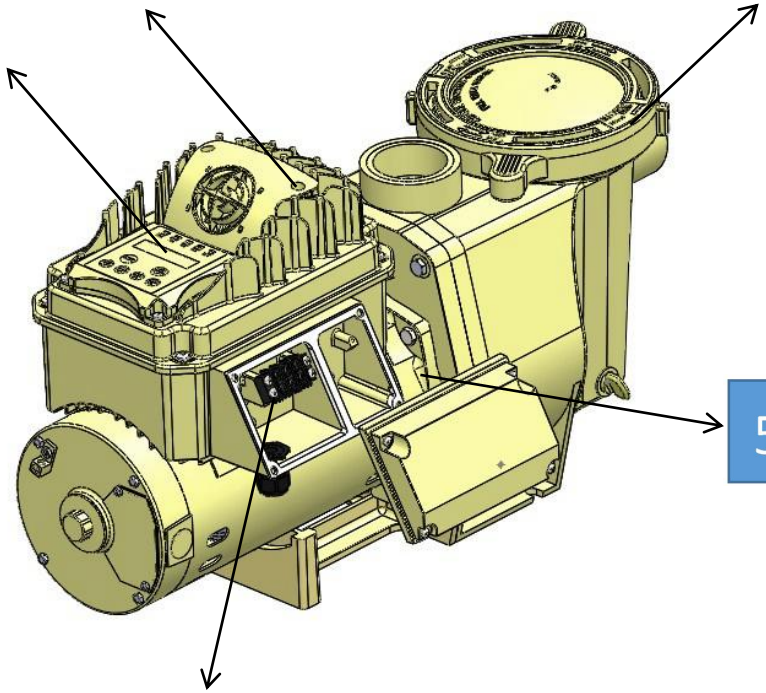

1

Single phase 230v, IP66 rated VFD. cCSAus Certified to NSF/ANSI 372, cCSAus Certified to UL 778, 1081 and CSA 3851-01/81 Compliant. DOE Compliant.

2

Simple 4-Speed Drive, 4 buttons preset at 3200RPM, 2800RPM, 1700RPM, 1300RPM respectively. 3200RPM Function will automatically reset to 2800RPM with 12 hours of operation. Drive will take in single phase 230v power and convert it to three phase 230v to high efficiency motor.

4

Powerful full rated 3HP pump performance; Optional High quality seal with SS 316 hardware; Quiet operations at full speed ranges.

5

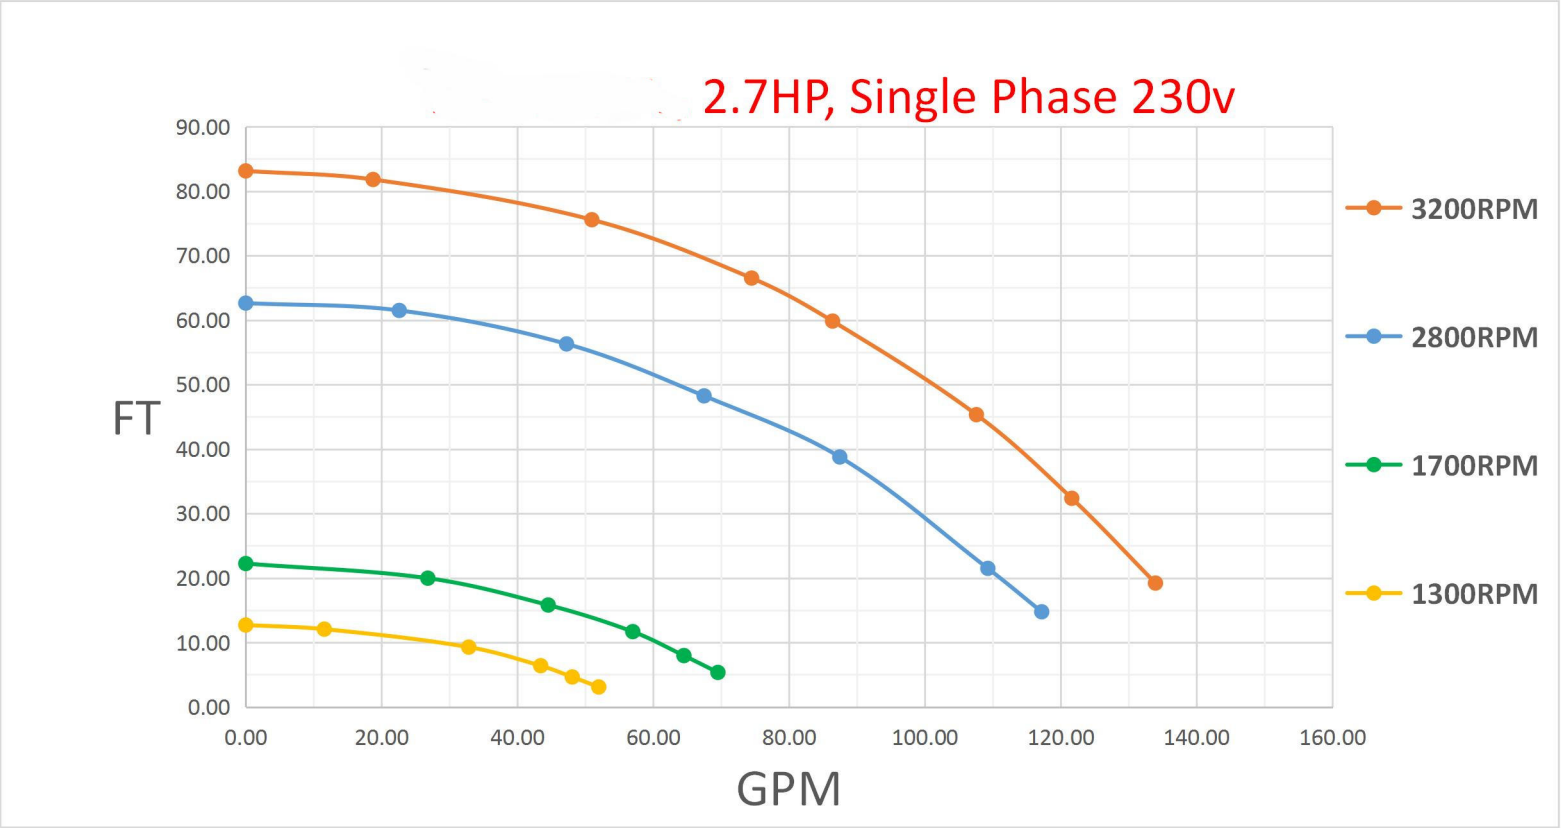

High efficiency permanent magnet motor, full rated 2.7HP SF 1.0, 230V. Double Barrel Vari-Cool design, TEFC inside ODP outside for extremely cool operation, USA Patents 10,788,051 and 10,859,098 ; Canada Patents 3.028.697 and 3.028.723

3

Spacious L1-L2-Ground Wiring Terminal Box. Reserved a second chamber for our premium variable speed pumps.

6 Performance Curve

Single Phase 230v Power-in, Class F Insulation System; RPM: 3200/2800/1700/1300RPM. 3HP Full Rated Impeller. cCSAus Safety Certification and DOE Compliant.

7 Shape Size： cCSAus Certified to NSF/ANSI 372 Compliance. DOE Compliant. CSA Tested to UL 778 , UL 1081 and CSA 3851-01/81 Compliance.
